

# PAST PERFORMANCE OVERVIEW: Civilian

Our strong capabilities and experience in designing IT solutions has enabled us to successfully deploy IT solutions for various Civilian Agencies within the United States Federal Government.

## **U.S. Census Bureau - Program Management**

TSI served as technical and operational Subject-Matter-Experts to provide systems design, development, integration, consolidation, operations and maintenance and support to the U.S. Census Bureau.

## **Nuclear Regulatory Commission (NRC) - Infrastructure Support**

TSI along with Prime Dell Systems provide ongoing agency-wide information technology infrastructure and support services for the U.S. Nuclear Regulatory Commission (NRC). Our team provides full scope IT infrastructure support to the US NRC.

## **Dept. of Treasury, Bureau of Public Debt - Video Teleconferencing**

TSI planned and implemented a custom solution for the Dept. of Treasury's Bureau of Public Debt comprised of people and processes to improve communications across the agency. Responsibilities include classified Video Teleconferencing systems engineering, technical operations, and training support.
